## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/29/2006 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 3, 4 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Dinsdale (US 4,732,061).

Dinsdale discloses a drill gripping device comprising "pair of gripping jaws" (136,137), "single actuating device" (143), "force amplifying linkage" (144,145,150,152), "first camming linkage" (150), "first rocker" (144), "second camming linkage" (152), "second rocker" (145) and "connecting portion" (146,148). See also figures 12, 13, 17, 18 and column 10, line 10 through column 11, line 6).

As for claim 3, the recited "jaw carriers" and "gripping jaws" do not distinguish from members (136,137) and (138) respectively, of Dinsdale.

Art Unit: 3672

Contrary to applicant's argument, there cannot be found in Dinsdale that the range of motion provided by the first camming linkage and second camming linkage would damage a portion of the drill stem narrower than the coupling portion 174.

***Allowable Subject Matter***
